

The New Earth Village

The New Earth Village COMMUNITY Artisan Market & Love Festival October 2022

Calling all conscious families birthing a New Earth, those passionate about thriving in commUNITY! Are you looking to connect with other kindred souls who embody freedom, self-sovereignty, oneness consciousness, and love? Do you believe these times of shift are our greatest blessing? Are you a local business who supports inclusivity, unity, respect, and free choice? Have you been deep diving into healing so you can show up in full presence and gratitude ready to play and advance further on Gaia?

WHAT:

The New Earth Village is hosting an Outdoor COMMUNITY Love Festival & Artisan Market in September to celebrate this unique time of growing community, connection, and consciousness.

High vibrational music. Mindful Movement. Village vibe.
Grounding in a space of Abundance. Local Craft Makers.
Cacao Ceremony. Emotional Freedom Technique Tapping Experience.
Circle and Story with Author and Storyteller.
Live Music. Drumming and Healing Sound Experience.
Conscious Families. Breathing. Resting. Warmth. Love. Connection.

The **intention** is twofold. First, to create a unified energy field of love and peace, and embody the statement that we are supporting the New Earth, a reality filled with sovereignty, brother and sisterhood, and solidarity. Second, to support local businesses, artisans, and craft makers who offer the community heart-spaced products. You'll have the opportunity to shop locally and support sustainability in the community on sacred land. Some of the incredible offerings include tallow balms, tarot readings, community acupuncture treatments, pine needle tea, health and wellness products, crystals and jewellery, tie dye creations, fruit smoothies, reiki infused essential oils, organic veggies and juice, wooden toys, scones and cookies, bamboo blankets, gratitude journals, all intentionally charged with love and wellness from loving creators.

WHEN:

WHO:

We've been blessed to co-create magic with beautiful groups in the past, both intimate and larger. This sacred event is for any individual, couple, or family who is feeling drawn to support the intention above. Feel free to share the initiative with a likeminded friend.

· *VENDORS:*

If you are a conscious local business owner who welcomes all without discrimination, and would like to share your heart-spaced offerings and creations, be it any medium from painting, jewellery, wood work, farm fresh veggies, clothing, and hand-made crafts, please email further for the application form! We'd be honoured to have you co-create magic in our sacred gathering. I'm also interested in empowering the voices and supporting the work of BIPOC because UNITY is my philosophy. If you know someone in the BIPOC community who is a local craft maker, please feel free to share this initiative with them.

VOLUNTEERS:

Interested in volunteering for the day? We are looking for volunteers to help guide parking, assist vendors with set up and take down, and offer loving care to a couple of children. Please contact thenewearthvillage@gmail.com if you are interested in applying to be a volunteer.

NOTES:

We will be dancing and playing by water and forest, in our new sacred space. I invite you to see all of the ways that you are loved and guided, and to come hOMe to yourself through music, sound, mindful movement and kindred soul connections. Feel into your heart and bring your drums and shakers if you feel called to make music together. This offering is a judgement-free, friendly space for connection, inspiration, support, and love. Come with an open mind and heart, ready to receive and stream the magical energies, and leave with great connections and heart-spaced creations!

I **do not** encourage the wearing of masks and/or face coverings, and do not support the mainstream narrative that we need to social distance. As a change agent and freedom writer, I am called to continue my offerings with gusto - The New Earth Forest School, a Parent and Child Nature Group, Women's Empowerment Circles, and more. Being the self-sovereign leader of our lives is part of how we create impactful change. I am fully ALL IN to co-create a new reality consisting of deep change and community, in embodying the change I wish to see in the world, and that includes more peace, freedom, self-sovereignty, and empowerment. My vulnerability and warmth may resonate with some and not with others. What I offer is from my heart, if it doesn't align, that's okay. You're welcome to share this initiative with a friend who may align with the vision.

ABOUT NATALIE:

Natalie is an intuitive, a visionary, a heart-spaced magician, a work in progress, and a nerd under a blanket of stars. Her journey involves submergence in the realm of energy medicine, mysticism, surrender, trust, unity, ceremony and celebration. She earned her Bachelor of Arts (Hons) in Philosophy and English, and her Bachelor of Education in 2007 from York University, and she also holds a Master's Degree in Education from York University in 2010, where she studied the educational practice and philosophy of the Reggio Emilia Approach to early childhood education. Her thesis focused on the importance of contemplation and mindfulness in education, and she studied holistic education under Jack Miller at OISE. Natalie is a strong believer in providing education for the whole person rather than a fragmented self. She is a Certified Educator in Ontario and has been employed with the York Catholic District School Board since 2007, with experience teaching Kindergarten, Elementary and High School. Upon becoming a mother in 2013, Natalie consciously chose homeschooling for her own children to create and shape an educational experience that allows for freedom, fluidity, and flow. She has since practiced Waldorf-inspired homeschooling during her children's formative years.

Natalie's passion is in community development. She has knack for networking and a gift for connecting kindred soul families. In 2016, she began hosting a weekly Parent and Child Nature Group in a Conservation Area in Aurora, which has since expanded into the creation of numerous resources for both parent and child to enrich their homeschooling and personal life journey. She also began holding space for women and mothers monthly in Women's Empowerment Circles, and guiding others in 1:1 pranic healing/reiki hOMe activation sessions. To date, Natalie has connected hundreds of families to develop homeschooling co-operative groups throughout the GTA. In 2020, she took the next step in her vision and opened an alternative education Forest School, a place for play, mindfulness, discovery, love and whole child expansion. Natalie plays the catalyst for subtle tweaks of further release and expansion, and energetically assists in opening up portals of energetic channels of higher consciousness and alignment to Source-God-Consciousness. She continues to make waves in both homeschooling and alternative education, continuously connecting and developing resources for families in either of these educational streams. She is here to shine and assist in the dismantling and collapse of what we have been told is right and true. Her vision is to create an eco village of support and community, allowing for more freedom, sovereignty, and harmony. Natalie trusts in the Collective's ability to empower and evolve, co-creating heaven in the here and now.

Beautiful souls,

We wish to thank you for your endless support and encouragement to make our heart-spaced offering flow with ease and peace! You cheering us on during this journey of pioneering forth to create change through being the change means so much!

Thank you for co-creating what will be a magical and expansive Artisan Market, filled with love, freedom, and joy!
