ABOUT NATALIE:

Natalie is an intuitive, a visionary, a heart-spaced magician, a work in progress, and a forever-student under a blanket of stars. Her journey involves submergence in the realm of alchemy, energy medicine, decolonization, embodiment, mysticism, surrender, trust, and unity. Natalie was attuned in reiki and pranic healing at the age of 13, studying from wise elders and Pachamama at an ashram in Trinidad, WI. She earned her **Bachelor of Arts (Hons) in Philosophy and English**, and her **Bachelor of Education** in 2007 from York University, and also holds a **Master's Degree in Education** from York University in 2010, where she studied the educational practice and philosophy of the Reggio Emilia Approach to early childhood education. Her thesis focused on the importance of contemplation and mindfulness in education, and she studied holistic education under Jack Miller at OISE. Natalie is a strong believer in providing education for the whole person rather than a fragmented self. She is a Certified Educator in Ontario and has been employed with the **York Catholic District School Board** since 2007, with experience teaching Kindergarten, Elementary and High School. Upon becoming a mother in 2013, Natalie consciously chose homeschooling for her own children to create and shape an educational experience that allows for her to work in a way that is not linear and academic, but one that involves ceremony, celebration, freedom, fluidity, and flow. She has since practiced **Waldorf-Reggio-Montessori-Forest School** inspired and intuitive homeschooling during her children's formative years.

Natalie's passion is in community development. She has knack for networking and a gift for connecting kindred soul families. In 2016 when her daughter was 3 years old, Natalie began hosting a weekly Parent and Child Nature Group in a Conservation Area in the GTA, which has since expanded into the creation of numerous resources for both parent and child to enrich their homeschooling and personal life journey. She also began holding space for women and mothers monthly in Women's Empowerment Circles, and guiding others in 1:1 pranic healing and reiki activation sessions. To date, Natalie has connected hundreds of families to develop homeschooling co-operative groups throughout the GTA. In 2020, she took the next step in her vision and opened an alternative education Forest School, a place for play, mindfulness, discovery, love and whole child expansion. Natalie is focused on gathering those who are working with a spirit of sacred solidarity and mutual reciprocity, oneness consciousness, sovereignty, and decolonization. Her intention is on mentorship of a **New Earth model of Education and Guiding**, as well as 1:1 coaching and healing sessions in Embodiment and Conscious Expansion.

As much of the community is already traversing the path of consciousness and spirituality, Natalie plays the guide and catalyst for subtle tweaks of further release and expansion. Her offerings energetically assist to open up portals and energetic channels of higher consciousness and alignment to Source-God-Consciousness. She continues to make waves in both alternative education and beyond, continuously connecting and bridging pathways for Soul empowerment and freedom. She is here to shine and assist in the dismantling and collapse of what we have been told is right and true. Natalie and her family are incredibly grateful for their sacred land and Gaia, which has blossomed into an eco-village of commUNITY that allows for greater freedom, sovereignty, right relations, and harmony. Here, heaven is created in the here and now.
